Such drawback shall be calculated according to the proportion of Empire and non-Empire tobacco in any blend and be at a rate based upon the duty originally paid on the tobacco of Empire origin used in the manufacture : Such rate to be fixed by the Superintendent in each case.

(3) A list containing the names of those licensed manufacturers deemed by the Superintendent, in his absolute discretion, to be eligible for the benefit of the provisions of this regulation relating to tobacco of Empire origin by reason of his reliance that they respectively will duly and faithfully observe and perform the conditions set forth in paragraph (4) of this regulation, shall be prepared and kept by the Superintendent, who shall have power, in his absolute discretion, to expunge any name from such list.

(4) The conditions to be observed and performed by licensed manufacturers listed as aforesaid shall be :—

- (i) The prescribed duty in respect of the tobacco must have been paid by the licensed manufacturer claiming the drawback.
- (ii) The tobacco of Empire origin used in the licensed manufacturer's factory must be drawn either from bond or direct from the importing ship, so that the actual amount entering the factory can be ascertained from the duty-paid removal permits.
- (iii) Complete stock books must be kept, in English, by the licensed manufacturer showing exactly how much of the stock of Empire leaf has been used in each brand of his manufacture, starting with the duty-paid removal permit as a base. Where the form of such stock book has not first been submitted to and approved by the Superintendent this condition shall not be deemed to be fulfilled.
- (iv) The Empire leaf must be stored in a separate place, approved by the Superintendent, and apart from the rest of the stock of leaf.
- (v) The licensed manufacturer must take stock of his Empire leaf at intervals of not longer than fourteen days.
- (vi) The licensed manufacturer must mark, in English and Chinese, all goods manufactured wholly or partly of Empire leaf with the proportion of Empire leaf used in the blend.
- (vii) All tobacco of Empire origin in respect of which drawback is applied for must be duly accounted for by the licensed manufacturer.
- (viii) Every application for drawback under paragraph (2) of this regulation must be accompanied by a statement, signed by the licensed manufacturer, showing the actual amount of tobacco of Empire origin on which drawback is claimed.
- (ix) All reasonable facilities must be given by the licensed manufacturer, his managers, agents, clerks, servants and workmen, to the Superintendent and Revenue Officers to enable him and them to be informed as to the observance and performance of these conditions.

(5) Drawback, whether in respect of Empire or non-Empire tobacco, shall be subject to the following proviso :—

Provided that in the case of tobacco

- (a) not being tobacco prepared in Chinese fashion which does not contain inorganic matter (including sand) exceeding twenty-two pounds, or sand exceeding four pounds, in every hundred pounds weight of such tobacco, exclusive of moisture, the drawback shall be calculated on a moisture standard of 14 per cent and a proportionate deduction from the amount of drawback shall be made when the percentage of moisture exceeds 14.

When the proportion of inorganic matter (including sand) exceeds twenty-two per cent of the tobacco, exclusive of moisture, a proportionate deduction shall be made from the drawback according to the appropriate rate appearing in this regulation.

SURVEY OF STEAMSHIPS:—										
(f) If the passenger accommodation is altered while a passenger certificate is in force the fee for surveying and measuring such alterations is \$30 provided, however, that if the number of passengers is increased by more than 200 this fee is to be increased by \$22.50 for every additional 200, or part of 200, passengers.										
(g) For the examination of the midship section and other structural plans of a new passenger ship, including a full investigation into the water-tight subdivision arrangements, the fee is to be one-fourth of that prescribed in the above scale subject however to a maximum of \$600. If the ship is surveyed during construction this fee will be considered as part of the fee for a 12 months passenger certificate.										
(h) When a ship is surveyed during construction as for passenger certificate, and the survey is to be completed except in regard to certain specific details such as life-saving appliances, passenger accommodation, etc., the fee will be the sum of the fees chargeable for the parts and details actually surveyed with the addition thereto of \$22.50 for the issue of a certificate of survey or certifying letter.										
(i) The fee for a passenger certificate is independent of the number of visits that a Surveyor may require to make before granting his declaration, and covers the complete survey of the hull, including the inspection of the bottom, etc., in dry dock, the survey of the boilers and propelling machinery on board the ship, the inspection of the equipments of the ship, including the lights and sound signals and life-saving appliances but does not cover survey of the wireless telegraph installation. In the case of a classed ship, the full fee for a 12 months passenger certificate also covers the survey for a certificate of approval of the loadline if such survey is made at the same time.										
(j) The fee for a passenger certificate does not cover any service under the Chinese Passenger Act, 1885, or the Asiatic Emigration Ordinance, 1915; the measurement for tonnage; the certificate of approval of the loadline of an unclassified ship, or the inspection of Crew Spaces.										
(k) In the case of a passenger ship, the fee for change of name includes the issue of fresh declarations and passenger certificates showing the new name and any alterations in the ownership and Port of Registry.										
The fee for a passenger certificate is apportioned as follows:—

(c) An emigration licence is only granted to a ship which holds a valid Hong Kong Foreign-going passenger certificate or its accepted equivalent. If the surveys for passenger certificate and emigration licence (or licences) are held simultaneously only one half of the above fee for an ordinary survey is to be charged for the latter in addition to the fee for passenger certificate.

SURVEY OF STEAMSHIPS :—

(e) If a trawler or drifter, built and measured for the Admiralty, is transferred to private owners and is being registered under Part 1 of the Merchant Shipping Act, 1894 and alterations are found to have been made affecting the tonnage, the fee is to be charged in accordance with Scale A. If no alterations have been made, a fee of \$7.50 only is to be charged for the visit to the ship and the issue of the necessary papers to the Registrar of Shipping at the intended port of registry.

(f) If the owners of a foreign ship apply for the renewal of a certificate of British Tonnage, the principal dimensions are to be re-tried, and, if they are found to agree with the certificate, a fee of \$30 only is to be charged for the issue of the new certificate. If the dimensions do not practically agree with the certificate of tonnage, the ship must be re-measured throughout under Rule I or II, as the case may be, and the appropriate fee charged.

(g) The fee for a copy of the Certificate of British Tonnage is \$7.50.

(h) When application is made for the issue or amendment of a "Suez Canal" or "Panama Canal" Special Tonnage Certificate, a fee of two-fifths of the full tonnage fee is to be charged for each certificate whether the measurement is made at the same time as the measurement for British registry or not. This fee includes re-measurement of British tonnage (except underdeck) if made at the same time. Certified copies of Suez Canal or Panama Canal certificate will be issued on payment of \$7.50 for each copy.

(i) If a foreign ship, originally registered as a British ship, is subsequently brought forward for registry, a fee of \$30 only is to be charged if, on comparison, the principal dimensions are found to agree with the original tonnage measurements. If, however, they do not agree and the ship has to be measured throughout, the full fee is to be charged. If the underdeck tonnage is found to agree and other items differ, then, in addition to the \$30 fee for check measurement, further fees are to be charged for these items in accordance with the foregoing.

(j) If a ship is being transferred from British to foreign registry, details of the British tonnage calculation may be supplied for the guidance of the foreign Customs Authorities on payment of a fee of \$7.50 per sheet subject to a minimum of \$30.

(k) The fee paid in accordance with Scale A covers any number of visits that the Surveyor may find it necessary to make before he is able to complete the measurement for tonnage and grant his certificate to enable a ship to be registered. It also covers the inspection of crew spaces and lights and sound signals, if the Surveyor is able to make these inspections at the same time as the measurement for tonnage but not otherwise. For any further visits necessary for the completion of inspection of crew spaces and lights and sound signals, additional fees are to be charged in accordance with Regulations 9 and 11 respectively.

(l) The fee for the inspection of minor alterations (e.g., of rig, engines, etc.) is \$15.

(c) The fee covers the issue of a dry docking certificate, but for a duplicate copy of the certificate a further fee of \$7.50 is to be charged.

(d) If this survey is part of the complete survey for a passenger certificate, loadline, etc., no separate fee is to be charged.

Ordinance 10 of 1899,  
Table C.*Inspection of Crew Spaces.*

9.—(a) The fee for each visit of the surveyor to the ship is \$15 but the total fee is not to exceed \$60 when more than four separate visits are necessary.

(b) This fee is not to be charged when the inspection of the crew spaces is made at the same time as the measurement for tonnage, or the survey prior to re-registry.

*Inspection of Markings.*

10.—(a) When application for the inspection is made by the owners or their agent a fee of \$15 is to be charged.

(b) This fee covers any number of visits required by the Surveyor for the inspection of the markings, but does not cover any other service.

(c) No charge is to be made for the inspection of markings on change of name, or change of Port of Registry of a ship; or if the ship is being measured for registry or re-registry and the fee for tonnage measurement has been paid.

*Inspection of Lights and Sound Signals.*

11.—(a) When application for inspection is made by the owners, or their agent the fee to be charged for each visit of the Surveyor to a ship is \$15, but the total fee is not to exceed \$60 when more than four separate visits are necessary owing to the lights and/or sound signals being found defective or for any other reason.

(b) This fee covers the issue of a copy of the report of the inspection but, for a duplicate copy, a further fee of \$4.50 is to be charged.

(c) This inspection is covered by the fees paid for survey for passenger certificate; clearance as an emigrant ship; measurement for tonnage under Rule I, or survey for seaworthiness prior to re-registry.

Inspection of Life-Saving Appliances.

12.—(a) For the inspection of life-saving appliances on board a ship on or before the first registry, or re-registry, a fee calculated on the basis of \$30 for each lifeboat is to be charged.

(b) This fee will cover the issue to the owner, master or agent of the ship a report of the inspection of the whole of the life-saving appliances but if a duplicate copy of the report is required an additional fee of \$4.50 is to be charged.

(c) For the subsequent inspection at the request of the master or owner, or, where a ship is found to have defective or deficient life-saving appliances, a fee of \$15 per visit, with a maximum of \$60, is to be charged.

Lifeboats over 20 ft. in length. ...	22.50
Motor lifeboats ...	45.00

For the survey of a lifeboat undergoing heavy repairs involving re-certification the same fee is to be charged.

These fees cover the issue to the applicant of a report of inspection of the boats only and, in the case of a passenger ship, are in addition to the fee for survey for a passenger certificate. If the boats are supplied to a cargo ship and a subsequent inspection of the whole of the life-saving appliances is made under paragraph (a) only the balance of the fees under that paragraph is to be charged.

(f) On application being made for survey during construction at the makers works, and certification, of a buoyant apparatus intended to form part of the life-saving appliances of a passenger ship a fee of \$3 per unit with a minimum fee of \$30 is to be charged.

- (i) If the detention is on account of overloading, improper loading, insufficient ventilation of coal cargoes, undermanning, or defective equipments such as charts or chronometers the fee is to be the same as that prescribed in Scale A.

## SURVEY OF STEAMSHIPS :—

Item.	Fee.
<p><i>Examination of Plans of Ships, Machinery, etc. to be Constructed outside the Colony.</i></p> <p>The Government cannot allow any survey during construction to be made outside the Colony but, if desired, will undertake to examine and advise upon plans showing the structural arrangements and details of ships, marine boilers, machinery, boats, etc., which are to be constructed outside the Colony and intended to comply with British requirements.</p> <p>The fee for this service will be assessed in each case according to the work involved in the examination.</p>	

*Surveys outside the Colony.*

20. The foregoing fees are for surveys within the limits of the Colony and include the surveyor's expenses in connection with such surveys. When, on application being made, the Government decide to allow a survey to be made outside the Colony, in addition to the usual survey fee and the Surveyor's travelling expenses, a special fee of \$150 will be charged for every 24 hours or part of 24 hours during which the Surveyor is absent from the Colony. This special fee will include a subsistence allowance for the Surveyor which will be assessed and paid by the Government according to the circumstances of the case.

All fees and a deposit to cover the additional charges must be paid in advance by the applicants and an undertaking given for the payment of any balance of fees and expenses connected with the service.

*Overtime Charges.*

21.—(a) Whenever Surveyors are called upon to perform services out of official hours application should be made to the Government Marine Surveyor and an undertaking given to pay the overtime charges.

(b) Official hours are to be regarded as from 10 a.m. to 4 p.m. Saturdays 10 a.m. to 1 p.m. and overtime is charged according to the following scale:—

On week days :—

from 8 a.m. to 10 a.m. and 4 p.m. to 6 p.m.	...\$15 per hour.
from 6 a.m. to 8 a.m. and 6 p.m. to 8 p.m.	...\$30 per hour.
before 6 a.m. and after 8 p.m. ... ..	...\$60 per hour.
on Sundays and holidays... ..	...\$60 per hour.

(c) A service occupying less than an hour will be charged for as one hour according to the scale. For services exceeding one hour, a quarter fee will be charged for every quarter or part quarter of an hour, according to the scale, but for a service exceeding ten hours in any one case the charge will be limited to that for ten hours. These charges cover the services of all the Surveyors engaged in the survey, except if the services of an Engineer Surveyor in addition to those of an Emigration Officer are required before an emigrant ship can be cleared, the survey made by the Engineer Surveyor will be regarded as a separate one, and overtime charges will be made in respect of both officers.

(d) If, from unforeseen circumstances, the duty cannot be commenced at the hour stated on the form of application, or cannot be completed without interruption, the time during which the Surveyors are kept waiting is to be charged for a half the usual overtime rate subject to the limit of ten hours for the whole service.

(e) Time occupied in travelling between the shore and the ship is to be charged for at half the usual overtime rate.

(f) As the tests of illumination of ship's sides, searchlights for ship's lifeboats and visibility of navigation lights can only be made satisfactorily after dark, therefore, necessarily out of office hours, only one-half the usual overtime rate is to be charged for such tests.

XIV. Index Number of Wholesale Prices, 1922-1936	S 35

The collection and compilation of trade statistics was resumed in 1930 and, for the first time since comparative figures have been available, the visible trade of the Colony in 1936 showed signs of improvement, particularly in the final quarter of the year when substantial increases were recorded both of imports and exports as compared with the corresponding period of the preceding year.

The combined values of imports and exports of merchandise in 1936 increased by 26.3% as compared with 1935, and by 8.4% as compared with 1934, in terms of local currency.

Imports of merchandise totalled \$452.4 (£28.5) millions in 1936 as compared with \$365.0 (£35.3) millions in 1935, and \$415.9 (£31.7) millions in 1934; whilst exports totalled \$350.9 (£22.1) millions in 1936, as compared with \$271.0 (£26.1) millions in 1935, and \$325.1 (£24.8) millions in 1934.

In terms of local currency imports of merchandise in 1936 increased by 23.9% as compared with 1935, and 8.8% as compared with 1934; whilst exports increased by 29.5% in 1936 as compared with 1935, and 7.9% as compared with 1934.

In terms of sterling values imports of merchandise decreased by 19.3% in 1936 as compared with 1935, and 10.1% as compared with 1934; and exports also decreased by 15.3% in 1936 as compared with 1935, and 10.9% as compared with 1934. (It should be noted that the average T.T. rate of exchange on London was 1s. 3 $\frac{3}{16}$ d. in 1936, 1s. 11 $\frac{5}{16}$ d. in 1935, and 1s. 6 $\frac{3}{16}$ d. in 1934).

It is estimated that the quantum of the import trade increased by 7.8% in 1936 as compared with 1935, and 12.6% as compared with 1934, but, of necessity, the volume of the import trade cannot be calculated accurately on account of the lack of a suitable unit of quantity and the fact that many commodities imported are declared by value only.

The following countries increased their shares of the import trade in 1936 as compared with 1935:—Japan, Netherlands East Indies, Siam, Germany, India, and Belgium; whilst increased shares of the export trade were credited to British Malaya, Japan, Siam, U.S.A., Netherlands East Indies, Philippine Islands, and India.

There were increased imports in 1936 of the following groups of commodities as compared with 1935:—Live animals, chemicals and drugs, Chinese medicines, dyeing and tanning materials, foodstuffs and provisions, fuels, hardware, liquors, machinery, manures, metals, minerals and ores, nuts and seeds, oils and fats, paints, paper and paperware, piece goods and textiles, tobacco, vehicles, wearing apparel and sundries: the only groups showing a decrease being building materials and railway materials. There were increases in all groups of exports with the exception of live animals and fuels.

Total movements of Treasure amounted to \$216.5 millions in 1936 as compared with \$254.7 millions in 1935. Imports totalled \$72.7 millions in 1936 as compared with \$38.8 millions in 1935, and exports \$143.8 millions as compared with \$216.0 millions.

Average T.T. opening rates of exchange during the year 1936 were:—London 1/3.3/16; France 522.15/16; U.S.A. 31.7/16; Shanghai 105; India 83.5/8; Singapore 53.7/8; Japan 108.1/8; Java 48.3/4.

Wholesale prices in the Colony showed an increase of 32.3% in 1936 as compared with 1935, and an increase of 12.7% as compared with 1934. Increases were recorded in each of the four groups of commodities, viz., Foodstuffs, Textiles, Metals and Minerals, and Miscellaneous Articles.

## IMPORTS AND EXPORTS REVIEW.

In the following report some comparisons are given of the more important import and export commodities during the years 1936 and 1935:—

### ANIMALS (LIVE).

Imports totalled \$8.0 millions in 1936, as compared with \$7.9 millions in 1935, and exports \$134,000 in 1936, as compared with \$168,000 in 1935.

Imports of *Cattle* increased from 48,570 head (\$2.2 millions) in 1935 to 52,246 head (\$2.3 millions) in 1936, there being increased arrivals from South China and Kwong Chow Wan, and a falling off from French Indo-China and Siam.

Imports of *Pigs* decreased from 288,950 head (\$5.5 millions) to 243,410 head (\$5.4 millions).

### BUILDING MATERIALS.

Imports totalled \$6.6 millions as compared with \$6.7 millions, and exports remained steady at \$3.5 millions.

Imports of *Bricks and Tiles* increased from 8.1 million pieces (\$143,749) to 12.0 million pieces (\$134,409), the decline in value being due to the fact that in 1936 there were no imports from the United Kingdom and Japan, the whole supply being received from China.

Imports of *Cement* decreased, whilst exports increased slightly. ## THESE QUESTIONS ARE TO BE FILLED UP IN RESPECT OF EACH PRISON IN THE COLONY.

## Questions.

I.—If the Prison is on a separate system, is the separation complete? And, if not, what is the separation enforced by day and night respectively?

II.—If not on the separate system, what provision is there for the supervision of the prisoners while in association?

III.—How many cells are there; and how many associated wards?

IV.—Taking the average number of prisoners in Gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?

V.—How are the prisoners classified?

## Answers.

The Victoria Gaol is nearly on the separate system. The Branch Prison at Lai Chi Kok is not on the separate system. Prisoners work and sleep in association. The Female Prison is partly on the separate system but prisoners are mainly in association both night and day.

Victoria Gaol:—All cell doors are provided with inspection holes through which the prisoners can be seen by the officers patrolling the wards. While at labour or exercise the prisoners are at all times under the immediate supervision of Principal Warders, Warders, and Assistant Warders. At Lai Chi Kok Branch Prison, officers patrol behind grilles at night. Female Prison. Cells have inspection holes. Wardresses patrol at night during the day the prisoners are under the supervision of the Matrons and Wardresses.

Victoria Gaol:— 633 cells on the separate system, 9 association cells, 1 condemned cell and 1 padded cell. Lai Chi Kok:— 9 association Halls—with accommodation for a total of 642 prisoners.

Victoria Gaol:—

In separate ..... 664 cubic feet.  
In association ..... (approximate) 200 " "

Lai Chi Kok:—There are 602 cubic feet to each prisoner and each one has 5½ sq. feet of window capable of being opened.

Female Prison, 394 cubic feet to each prisoner.

In classification their sentences and nationality are taken into consideration; they are classified as follows, viz.:—

*Europeans, Indians, and Chinese.*

Females.		On remand and
Convicted adult prisoners.		awaiting trial.
Debtors.		
Misdemeanants.		

All the prisoners of the above classes are separated at night, and in the yards, so far as possible.

*Questions.*

*Answers.*

VI.—Is penal labour—that is, labour by tread-mill, crank, or shot-drill—in force?

There is no tread-mill. Shot-drill, crank-labour, and carrying stone are no longer practised.

VII.—If so, during what periods of imprisonments, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? The hours of labour throughout the year are from 7 a.m. to 4 p.m., one hour being allowed for the mid-day meal.

No work is usually performed on Saturday afternoons, Sundays, Xmas Day, Good Friday & Chinese New Year Day.

VIII.—What kind of labour, other than penal labour is in use?

Tailoring, shoe-making, painting, photography, weaving, net-making, carpentering, grass and coir mat making, rattan work, type casting, printing, book-binding, tinsmithing, washing, cleaning, garden- ing, and incidental repairs to the Prison buildings.

IX.—If the prisoners are employed beyond the walls of the Gaol, state—

1. On what kind of work they are so employed?
2. How are they supervised?
3. How many escapes of prisoners, while being employed beyond the Gaol, have taken place during each of the last three years?
4. How are the profits of their labour accounted for?

1. Detached parties are employed on garden work, building or repairs.

2. By armed guards.

3. 1934 Nil.  
1935 Nil.  
1936 Nil.

The average time allotted for sleep is about 11 hours in 24.

The cells of the Victoria Gaol are not artificially lighted, but lights are kept burning in all passages and corridors, and the patrols on duty are provided with lamps to throw light into the cells when required.

At Lai Chi Kok prisoners sleep in association in lighted Halls.

Patrols are on duty in Victoria Gaol throughout the night, and patrol the corridors, passages and yards of the prison constantly. The patrols are visited at frequent intervals by a Principal Warder.

At Lai Chi Kok the patrols are behind a grille through which they supervise the prisoners. They are frequently visited by senior officers.

The Female Prison is artificially lighted throughout. Wardresses patrol at night.

The Royal Observatory is situated on a hillock, 100 feet high, near the southern extremity of the Kowloon Peninsula. To the South is Hong Kong Island, consisting of a range of hills running east and west, with peaks from 1000 to 1800 feet high. The nearest point on this range is 2½ miles from the Observatory. Five miles to the eastward of the Observatory, where another small peninsula projects southward, is a range of hills from 700 to 1000 feet high. To the North a range of hills from 200 to 400 feet high stretches across the peninsula a mile from the Observatory. From 3 to 20 miles farther North the ground is hilly over the greater part of the peninsula with peaks from 2000 to 3000 feet high. To the westward of the Observatory the hills on Lantau Island, 10 miles distant, rise to 3000 feet.
